https://github.com/NiketKumardheeryan
Address: Shahdara, New Delhi

EDUCATION

B.Tech (2018-2022)

Bharati Vidyapeeth College of Engineering,

 (IP University) New Delhi.

8.2 CGPA,

Branch - Computer Science & Engineering

Experience

Internship

Complete an internship of 1 month as a Data science

 & Bussiness analytics from The Sparks foundation.

Mentor

Menor at GSSOC 21

Publication

Churn rate Analysis
 EDA analysis of Fintech company's customers
churning rate & compared the many Machine
learning algorithms Ex. Ensemble learning, SVM,
 Logistic Regression etc finally got an accuracy
of 83%

PROJECTS

Covid-19 Tracker

Flask + Machine learning model-based web app,
 Predict the percentage of affected people & track
 all the records of Covid-19.

.

Dev-O-City

A helper web application + ChatBot for unemployed
People, It is similar to Facebook circle, but it is more
 Useful. This app assigns jobs based on their skills.
Made by using - Javascript, Node.js, Chatbot, NLP.

Certifications and Awards
-Machine learning

-Python for Data science

-Ranked under 100 in Analytics
Vidhya Data science hackathon

SKILLS
-Machine learning, Python,
-Scikit-learn, Numpy, Pandas,

-Matplotlib, Seaborn.

-Statistics, SQL

-Excellent verbal and written
communication skills.

Courses
Machine learning

Fundamentals of Statistics

Basics of SQL

Java (Basic), C++

Data analysis with Python

Data Scientist

Deep learning

Computer vision

Other Activities

-Internshala Campus Ambassador,
-Member of Eduminerva Society,
-Volunteered 36 hours for NSS,
-Team Leader.

Background Changer

A computer Vision project, which changes the backgrounds
Of any image or videos. We can change any background by
Using this template or package.
